Between Potential and Ideal

THE THEORY

Core sentence — Klingon review draft: Ideal 'oHbe' Hochchu'ghach'e'. DuH HochvaD nuq mojmeH lo'laH 'e' qIjmeH, bIQtlq veghbogh Duj rur yIn.

Source meaning: The absolute is not the ideal. Existence is the river-crossing through which absolute potential clarifies what within itself ought to become ideal.

English source: These chapters are different attempts to sharpen the same idea. Some are probably wrong; some only get closer. If one chapter carries the heart of the thing for you, please understand the theory through it.

The project terms remain visible where a descriptive Klingon phrase would falsely imply a settled canonical equivalent.
